**Patient Acknowledgement and Consent Form**

The Department of Health and Human Services has established a "Privacy Act" to help insure that personal health care information is protected for privacy. The Privacy Act was also created in order to provide a standard for health care providers to obtain their patient's consent for uses and disclosures of health information about the patient to carry out treatment, payment, or health care operations.

As our patient, we want you to know that we respect the privacy of your personal medical records and will do all we can to secure and protect that privacy. We strive to always take responsible precautions to protect your privacy. In order to provide services that are in your best interest, when it is appropriate, we provide the minimum necessary information to only those we feel are in need of your health care information, information about treatment, and payment or health care operations.

We also want you to know that we support your full access to your personal medical records. We may have indirect relationships between our office and other companies pertaining to your care (i.e. laboratories that only interact with physicians). It is possible that we may have to disclose personal health information for the purpose of treatment, payment or health care operations. These entities are not required to obtain patient consent.

I understand that my health records may include information both created and received by this practice. This information may be in the form of writing, electronic records, and spoken words and may include information about my health history, health status, symptoms, examinations, test results, diagnosis, treatments, procedures, prescriptions, and similar types of health related symptoms. I understand and agree that this practice may use and disclose my health information in order to:

- Make decisions about and plan for my care and treatment.
- Refer to, consult with, coordinate among, and manage along with other health care providers for my care and treatment.
- Determine my eligibility for health plans or insurance coverage and submit bills, claims, and other related information to insurance companies or a responsible agent for payment of my health care.
- Perform various offices, administrative, and business functions that support my physician's effort to provide me with, arrange, and be reimbursed for quality health care.

You may refuse to consent to the use or disclosure of your personal health information, but this must be in writing as mandated by the Privacy Act. Under this law, we have the right to refuse treatment should you choose not to disclose your information. I also understand that I have the right to ask that some or all of my health care information not be used or disclosed, and understand that this practice is not required by law to agree with such requests.

I have reviewed and understand this consent form.
